CECL - The Bank has applied the new directives with regard to provisions for credit losses as from January 1, 2022.

Expenses with respect to credit losses in the first half of 2022 are primarily due to adjustments to the group-based provision due to growth of the Bank's business loan portfolio and residential mortgages portfolio. In the first half of 2021, due to the gradual emergence from the Corona Virus crisis, there was improvement in the economic environment, that influenced the level of provision.
