The effect of Iron Swords war events

- *On October 7, 2023, after the balance sheet date, the Iron Swords war was declared following a sudden murderous rampage into settlements close to the Gaza Strip border. This was concurrently with the start of military escalation on the Northern border.*
- *The Bank is prepared to continue its operations and to provide service to its customers, including in war-affected zones, in as much as possible.*
- *The Bank takes part in the national endeavor and has announced the allocation of funds for charitable donations and assistance to civilians affected by the war, and has launched programs to provide relief to Bank customers, with emphasis on customers resident in war-affected regions.*
 - *The estimated amount allocated by the Bank for charitable donations, adoption of the town of Sderot and kibutz Kfar Aza and other benefits extended to the residents thereof is NIS 90 million.*
 - *The estimated value of relief and banking benefits extended to all Bank customers, beyond the aforementioned amount, is NIS 450 million, assuming full utilization of all benefits offered to the relevant population.*

Payment deferment due to the war (NIS in millions, as off November 24, 2023)

	No. of loans	Payment amounts deferred	Total credit to this segment ⁽²⁾	Payment amounts deferred to total credit

Total	46,601	1,162	327,471	0.35%

(1) No. of borrowers.

(2) As of September 30, 2023, before provisions.

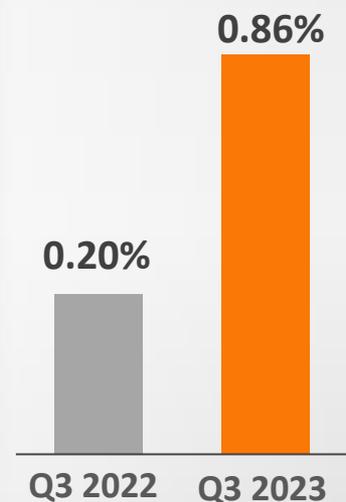

Segment	1-9/2023		1-9/2022		Q3/2023		Q3/2022	
	Provision	Rate of provision	Provision	Rate of provision	Provision	Rate of provision	Provision	Rate of provision
Housing loans	235	0.15%	88	0.06%	172	0.34%	36	0.07%
Business	671	0.97%	200	0.32%	403	1.75%	98	0.46%
Households	262	1.27%	53	0.26%	119	1.72%	21	0.31%
Total	1,168	0.48%	341	0.15%	694	0.86%	155	0.20%

The increase in provisions in the third quarter of 2023 is mostly due to group-based provision for credit losses, recognized so as to reflect the increase in credit risk in the market due to the war, though no material indicators of increase in this risk have been seen to date.

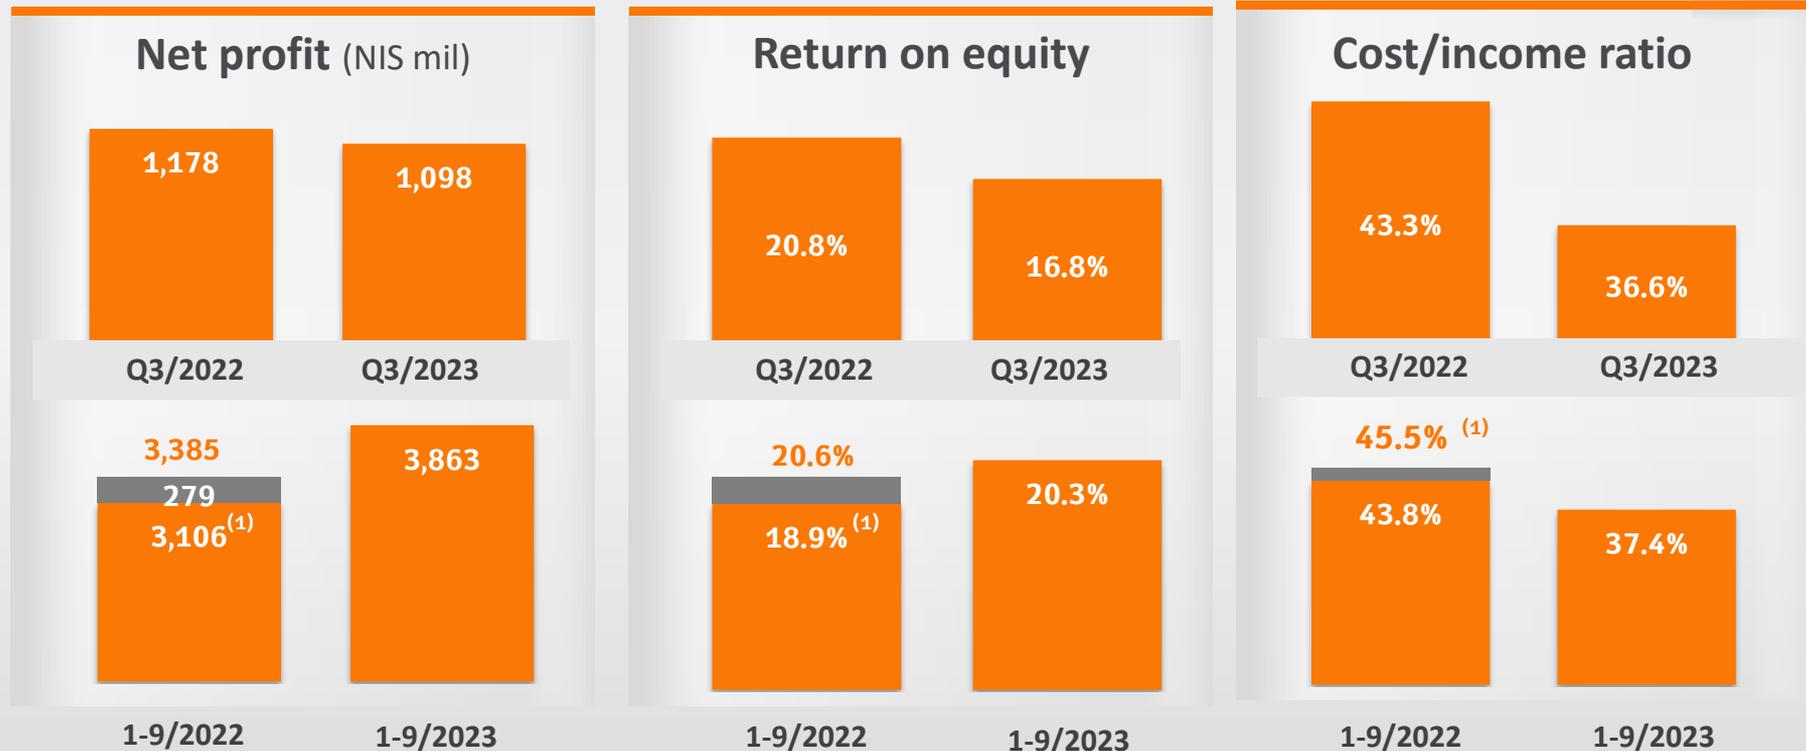

Expenses with respect to credit losses in the third quarter of 2023 amounted to NIS 694 million, of which NIS 616 millions are group expenses for credit losses, and NIS 78 million (0.10% of total loans to the public) are individual expense for credit losses.

In the first nine months of 2023 expenses with respect to credit losses amounted to NIS 1,168 million, of which NIS 935 millions are group expenses for credit losses, and NIS 233 million (0.10% of total loans to the public) are individual expense for credit losses.

Provisions / loans to the public

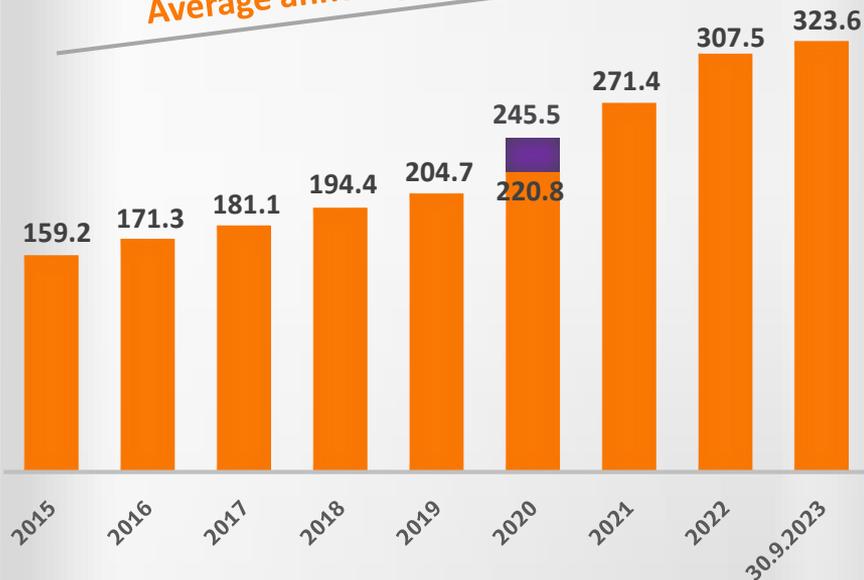

- *The increase in provisions in the third quarter of 2023 is mostly due to adjustments made by the Bank to components of group-based provision for credit losses calculated on qualitative basis, recognized so as to reflect the increase in credit risk in the market due to the war started on October 7, 2023 with respect to customers resident in the conflict regions which may face difficulties, and to macro-economic and other developments which may affect everyone in Israel. This also reflects the risk potential due to customers who were granted deferment of their loan payments for a specified period, though no material indicators of increase in this risk have been seen to date.*
- *In order to establish the provision with respect to impact of the war, the Bank conducted independent sensitivity analysis of potential effects of deterioration in macro-economic parameters on default rates. The group-based provision recognized by the Bank with respect to uncertainty due to the war, is similar to total loss under the stress scenario of short-term decline by 7%-8% in GDP, a further 1% increase in Bank of Israel interest rate, an increase by 1%-2% in mortgage interest rate, and a rise in unemployment to 8%-9%. Under a stricter stress scenario reviewed by the Bank, loss was NIS 100 million higher than the provision recognized on the financial statements.*
