Description of key features of equity instruments included in the Bank's regulatory capital as of June 30, 2021

- (1) The Bank would be required to convert the outstanding principal and interest balance of these capital notes into Bank ordinary shares upon certain occurrences as follows:
 - (a) The Bank's Tier I capital ratio to risk components, as reported on the Bank's financial statements, has dropped below 6% and has not returned to the aforementioned value or higher within 90 days from the issue date of said financial statements;
 - (b) According to the Bank's financial statements, the Bank' retained earnings balance has turned negative;
 - (c) The Bank's Independent Auditor, in an opinion or review report attached to the Bank's financial statements or interim financial statements, has drawn attention to Notes to the financial statements with regard to significant doubt as to continued existence of the Bank as a going concern.
- (2) The conversion rate for conversion of capital notes into Bank ordinary shares will be determined by the Trustee after 14 consecutive trading days, the first of which is the first trading day following the date on which the Bank's notice was delivered. The conversion rate will be determined based on the lowest conversion rate as follows, with the value of capital notes for conversion purposes calculated including principal, linkage differentials and accrued interest as of the date on which the Bank's notice was delivered:
 - (a) Shareholder equity per Bank share, less a 20% discount. Shareholder equity per share will be calculated based on the Bank's most recent financial statements issued prior to calculation of the conversion rate;
 - (b) The average closing price per Bank ordinary share on the Tel Aviv Stock Exchange on 14 consecutive trading days, the first of which is the first trading day following the date on which the Bank's notice was delivered.

Notwithstanding the foregoing, the calculated conversion rate shall not exceed a closing price of NIS 37.00 per share nor be less than a closing price of NIS 18.00 per share, with both these prices linked to the Consumer Price Index issued for September 2006 and adjusted to reflect price changes with respect to bonus share distribution, share split or reverse split, capital reduction and the benefit component with respect to each rights issuance made during the term of the capital notes.
