On November 15, 2021, the bank's Board of Directors decided to distribute a dividend in the sum of ILS 752.7 million, which constitute 30% of the net profit for the first nine months of 2021, inter alia in light of the results of the bank's activities during this period, and with attention to the Supervisor of Banks' circular from September 30, 2021, which included an update of Proper Conduct of Banking Business Directive No. 250, on the topic of "Adjustments to Proper Conduct of Banking Business Directives for Dealing with the Coronavirus (Temporary Provision)", in which it was noted that the Supervisor of Banks encourages the banking corporations to take a prudent and conservative approach to dividend distribution, and that his position is that the distribution of a dividend at a sum exceeding 30% of a bank's profits (in 2020 and in 2021) would not be considered prudent and conservative capital planning. After the temporary provision will expire, the bank plans to continue acting in accordance with its dividend policy, subject to the provisions of the law and the restrictions set by the Supervisor of Banks.

Regulation 37(a)(1)

Below are the directors' decisions in accordance with Regulation 37(a)(1) of the Securities Regulations (Periodic and Immediate Reports), 5730-1970:

- The proposed dividend distribution does not have a material impact on the bank's financial situation. See below for details of the revenue balance.
- The balance of the corporation's revenues as defined in Section 302 of the Companies Law, prior to the proposed distribution, amounts to a total of ILS 17,574 million.
- The balance of the corporation's revenues as defined in Section 302 of the Companies Law, after the proposed distribution, amounts to a total of ILS 16,821 million.
- The impact of the proposed distribution on the equity structure was examined and the board of directors estimation is that the results of the bank's activity in the year following the dividend distribution shall be such that the capital adequacy ratio and the leverage ratios shall be no less than required.

Furthermore and in addition to the aforesaid:

- There is no concern that the dividend distribution might prevent the bank from complying with its current and expected commitments.
- The proposed distribution is out of the revenues, as defined in the Companies Law.
- The bank complies with additional regulatory limitations set by the Supervision of Banks, including the provisions of the Proper Conduct of Banking Directive no. 331 regarding "dividend distribution by banking corporations", as well as capital adequacy limitations, leverage limitations and other limitations.

In view of the aforesaid, it is evident to the board of directors that there is no impediment to distribute a dividend in the sum of ILS 752.7 million, which constitute 30% of the net profit for the first nine months of 2021, and decided to approve said distribution in view of the results of the activity of the Bank in this period.

It is hereby clarified that the dividend distribution described above in this report is not to change the bank's updated dividend policy (as published on February 27, 2018, reference no. 2018-01-015753).
